

Open To Stillness Introduction to Visionary CranioSacral Work

With Rose Khalsa

This Training is a 14 hr. Approved Provider of the NCBTMB

This weekend workshop is an introduction to the powerful healing modality of Visionary CranioSacral Work. This amazing healing work combines biodynamic skills with intuitive and shamanic perceptive awareness. These teachings come from Dr. William Sutherland, D.O., (who was a visionary healer and osteopath) combined with teachings of Dr. Randolph Stone, D.O, D.N and D.C, the founder of Polarity Therapy.

This work is about supporting the nervous system, the cranial tides, and the cerebral spinal fluid that bathes all our cells with prana. This energy is deeply connected to our soul essence.

Using gentle techniques, coupled with intention, intuition and compassion, craniosacral work can support deep releasing of old patterns held in the body, and is especially helpful after accidents, surgeries, and trauma.

Craniosacral Visionary Work uses our divine guidance to see the invisible. It is transformational work that supports bringing our awareness to a deep place of stillness, silence and spaciousness, to allow what arises to be healed.

Since this weekend is an introduction to the work, anyone who is interested in healing can attend. The work is so non-invasive it can be used by anyone who wants to support someone on their healing path. All you need is an open heart and to be able to be “present” with what arises with compassion.

DATES: JUNE 15TH, 16TH, 2013 from 9:30-5:30pm

LOCATION: Mystery School of the Temple Arts, a private Temple and Studio in Dearborn MI.
